To The People Of Kauai

Grasp this opportunity before it is too late! A few dollars properly invested might put you on Easy Street. Be a sport and take a chance. If you fail, go to it again. Wealthy people were poor, but took a chance and made good. Your third man work for a salary and rent a house all their lives. They lack nerve to assert themselves. A trip to the Coast or an auto ride would cover their savings for a year. The farmer takes a chance when he plants; the ship may sink; your home may burn down, but only a coward loses courage.

Copy from Los Angeles Herald, received on this mail:

"Lakeview No. 2 Oil Co. Hits Big Gas Well—Mud and Water Thrown High Over the Derrick."

"It is thought by oil men who have visited the property that the company is just over the main oil sand, and that within the next few feet the well will encounter a flow that will compare favorably with the new well of the Lakeview, the Consolidated Midway, the standard and other producers of that locality."

The fact that when the gas pressure in this well broke loose there was over 4200 feet of water in the hole, and before the shale could leave up into the casing this whole column of water had to be lifted by the gas pressure, leads those who are keeping close tabs on conditions in this vicinity to believe that something more than common can be looked for when this well penetrates to the main sand."

A deep well assures a big gusher for years, as it drains the oil from the upper levels.

Lakeview No. 1 stock cost \$100, and sold for \$200.00 per share.

The price of Lakeview No. 2 is now \$100, and has no doubt it will jump to \$100.00 per share.

This is your opportunity to take a gamble in almost a sure proposition.

Men and women desirous of improving their condition in life should read this carefully, an act quickly as no more shares will be sold after the well comes in.

I have only a few thousand shares left.
